Orlando, FL 32832 | alexandrepasquini@gmail.com | linkedin.com/in/a13x4ndr3

PROFESSIONAL SUMMARY

Business development, operations, and AI-driven automation leader with 10+ years driving B2B market expansion, client relationships, and revenue growth across technology and service industries -- including a 50% territory market-share expansion in under one year. Currently building and applying practical AI systems (CRM automation, voice agents, retrieval-based assistants) while completing a Master's in Artificial Intelligence. Fluent in English, Spanish, and Portuguese; experienced working directly with decision-makers, technical teams, and cross-border stakeholders.

CORE SKILLS

Business Development & B2B Sales | Market Expansion & Account Growth | Client Relationship Management | Applied AI & Automation (CRM, voice agents, RAG systems) | Territory & Field Operations | KPI/SLA Management | Cross-Functional & Cross-Border Collaboration

WORK EXPERIENCE

Business Professional Intern (CPT)

Aug 2025 -- Present

Siemens Energy -- Orlando, FL

- Apply AI/ML coursework directly to process-automation projects, identifying automation opportunities with technical and business stakeholders.
- Restructure internal workflows to improve cross-team visibility and delivery-timeline tracking.
- Maintain project documentation supporting on-time delivery across multiple concurrent initiatives.

Service / Operations Manager

Jan 2025 -- Aug 2025

Minsait -- Lisbon, Portugal

- Managed client-facing service operations (service desk, logistics, planning, technical support) directly impacting customer satisfaction, contract performance, and retention.
- Tracked KPIs and SLAs to keep service delivery aligned with client expectations, reporting into commercial and leadership teams.
- Sustained long-term client relationships through consistent follow-up and performance reviews.

Territory Manager

Mar 2023 -- Dec 2024

NCR Atleos -- Lisbon, Portugal

- Expanded B2B accounts across banking and retail sectors by identifying new business opportunities and growing existing relationships.
- Served as primary point of contact between clients and internal teams, coordinating installations, maintenance, and training with technical staff.
- Drove account growth through on-site relationship management with business owners and facility decision-makers.

Country Manager

Jan 2014 -- Feb 2023

Autocab, an Uber Company -- Sao Paulo, Brazil

- Expanded market share by 50% in under one year by redesigning commercial and operational strategy for national market operations.
- Built and managed strategic B2B partnerships, representing the company with executives, partners, and enterprise customers.
- Defined project scope, feasibility, and rollout plans directly with clients, supporting sustained revenue growth through long-term retention.

Technical Operations Manager

Sep 2010 -- Dec 2013

Autocab, an Uber Company -- Sao Paulo, Brazil

- Coordinated technical deployments and service support through client onboarding and ongoing account operations.

- Documented workflows that improved service consistency and scalability across accounts.

EDUCATION

Master of Science in Artificial Intelligence -- Atlantis University, Miami, FL (Expected July 2027)

Bachelor's Degree in Information Systems -- Anhanguera University, Sao Paulo, Brazil (Dec 2022)
