Andrea Herrera

EDUCATION

Atlantis University | Miami, FL

May 2026 – April 2027 (expected)

Candidate for Master of Science in Artificial Intelligence

Suffolk University | Boston, MA

August 2021 – December 2025

Bachelor of Science in Computer Science

- Awards and Scholarships: University Achievement Grant, Ram Scholarship

CERTIFICATIONS

MIT Professional Education | Cambridge, MA

May 2025 – Aug 2025

Applied Data Science Program: Leveraging AI for Effective Decision Making

RELEVANT EXPERIENCE

Point Blank Software Engineering Intern | Pompano Beach, FL

May 2024 - Aug 2024

- Optimized SQL queries and automated workflows to improve database efficiency, including data import/export processes.
- Designed and implemented a frontend/backend interface integrating SQL data for employee product pricing in a costing screen.
- Managed secure Shopify data transfers and built X++ automation in Microsoft Dynamics AX to streamline employee record management.

Sipheca Information Technology Intern | Maracaibo, Venezuela

Jan 2021 - May 2021

- Organized and maintained files, databases, and records while providing administrative support (calendars, scheduling).
- Gained hands-on exposure to a professional IT environment across a variety of functional areas.

PROJECTS

Honestly — Video Journaling App

2026 – Present

- Independently building "Honestly," a video journaling app that helps users build a consistent, low-friction reflection habit through short daily video entries.
- Designing the product and UI/UX in Figma and building the iOS app in Swift as a solo project.

Data Exploration and Prediction in NSSI Social Journals | Suffolk University

Jan 2024 - May 2024

- Built a Python (pandas, NumPy) project analyzing an NSSI social journal, examining user demographics and posting patterns.
- Applied sentiment analysis and machine learning to predict user behavior, surfacing patterns tied to potential triggers.
- Visualized findings through data plots to communicate insights effectively.

LEADERSHIP EXPERIENCE

Student Council President at Escuela Bella Vista | Maracaibo, Venezuela

Aug 2019 – May 2021

- Worked closely with council members, administrators, and the school community to address student needs and plan fundraisers, volunteer work, and school-wide events.
- Managed the council's budget, ensuring that funds were allocated appropriately.

EDAN (Volunteer) | Maracaibo, Venezuela

Aug 2019 – May 2020

- Visited a Catholic all-girls orphanage every-other week, organizing recreational activities and fundraising for clothing, food, and educational supplies.
- Hosted talks on health topics and provided emotional support for the girls.

SKILLS

Programming:

Python, Java, C++, X++, SQL, HTML, Swift.

Concepts:

Object Oriented Programming, Data Structures & Algorithms, Architecture of Computer Systems, Discrete Mathematics, Data Science/Analysis.

Languages:

English (Fluent), Spanish (Native).
