

Giovanna Zeglio

Architect & Interior Design Sales Consultant | M.S. Artificial Intelligence student

PROFILE

Architecture and interior design professional with experience in residential and commercial projects, technical drawings, client presentations, regulatory documentation, furniture selection, and installation coordination. Current graduate work applies machine learning and local language models to interior design and commercial furniture workflows.

PROFESSIONAL EXPERIENCE

OfficeFurniture4Sale (OF4S) | Interior Design Sales Consultant | Mar 2026–May 2026

Developed 2D/3D office layouts and client proposals; consulted on furniture needs, site measurements and product selection; coordinated quotations, orders, vendors, contractors and installation follow-up. Worked with CRM, CET drawings and renderings.

ACHT Architects | Architect | Jan 2021–Nov 2024

Developed residential projects from preliminary to executive design, including high-end homes, condominiums and social housing. Produced interiors, custom joinery, technical drawings, 2D/3D presentations and site measurements; managed project and construction coordination, client communication and municipal documentation.

Breton | Architect | Oct 2020–Jan 2021

Designed furniture-integrated interiors and residential spaces in 2D/3D; modeled in SketchUp and rendered with V-Ray and SU Podium. Consulted clients, presented designs and supported project control and sales delivery.

Renovar Compliances | Regularization Analyst | Apr 2019–Sep 2020

Prepared legalization and approval documents for banks, hotels, restaurants, retail and industrial sites. Coordinated as-built surveys and renovation, electrical, hydraulic and fire protection documentation for municipal reviews.

SP Consult | Architecture Assistant | May 2018–Mar 2019

Supported remodeling, accessibility, signage, fire prevention and electrical plans; prepared as-built drawings and permit documentation.

Russo Arquitetura | Intern | Jun 2016–Apr 2018

Developed residential studies, alternatives and technical drawings; completed site measurements and city approval submissions.

SELECTED AI PROJECTS | ATLANTIS UNIVERSITY

Local model benchmark (2026): Compared Llama 3.2 3B and Qwen3 4B using seven commercial furniture and interior design prompts; evaluated response quality, speed, memory and unsupported claims. Recommended Qwen for the tested quality criteria.

Customer segmentation (2026): Applied K-Means to a 200-row mall customer dataset, selected five clusters, and evaluated them using silhouette, Davies–Bouldin and Calinski–Harabasz scores.

Prompt library (2026): Developed reusable interior design and office furniture prompts and evaluated outputs on accuracy, helpfulness, format, completeness, evidence, safety and clarity.

EDUCATION

M.S. in Artificial Intelligence, Atlantis University | In progress (CV lists 2025–2027)
Bachelor of Architecture and Urbanism, Universidade Paulista (UNIP) | 2016–2021

TOOLS & LANGUAGES

AutoCAD, SketchUp, CET, V-Ray, SU Podium, Photoshop, Lumion; Python, PyTorch, scikit-learn, Ollama (graduate coursework).
Portuguese (native), English (fluent), Spanish (intermediate).

PROFESSIONAL DEVELOPMENT

3DM School courses in Photoshop, SketchUp, V-Ray and Lumion (2020); SU Podium Render training, Breton (2021). Participated in Green Building Week and II CONARQUI (2021).
